WE NEED LAWS AS STRONG AS NEW YORK WOMEN

DEAR SENATOR,

I am disappointed that none of the provisions of the Women's Equality Act have become law. As your constituent, I want this to change. The 10 million women of New York need all the measures of the Women's Equality Act. It's simple: **we can't fully address women's inequality by ignoring vital components of women's lives.**

Women continue to stand strong in the face of threats to their reproductive healthcare, workplace discrimination, and violence. We need our elected leaders to stand strong with us. The Assembly has taken the lead. Now it's up to the Senate. Please take action now to upgrade our laws and pass the full Women's Equality Act today. **We need laws as strong as New York women.**

Sincerely,
